

ANNALES BOGORIENSES

New Series

Volume 15, No.1, 2011

Cross section of red ginger (*Zingiber officinale* Rocs.) leaves grown *in vitro* and *ex vitro*

A Scientific Journal in Life Sciences with Emphasis in Biotechnology,
Molecular Biology and Biochemistry

Indonesian Institute of Sciences

Volume 15, No. 1, 2011

CONTENTS

Protective Effect of CD4 ⁺ CD25 ⁺ Regulatory T Cells on Mice Model of Rheumatoid Arthritis <i>Muhaimin Rifa'i</i>	1
<i>In vitro</i> Growth Response of <i>Taraxacum officinale</i> Weber ex F.H. Wigg Regenerated from Different Type of Explants <i>Tri Muji Ermayanti and Andri Fadillah Martin</i>	7
Comparison of the Reduction Effect of Sucrose and Table Sugar Concentration on Growth Characteristics of Red Ginger (<i>Zingiber officinale</i> Rocs.) Cultured in Liquid Medium <i>Betalini Widhi Hapsari, Tri Muji Ermayanti, Deritha E. Rantau, and Rudyanto</i>	15
Phenotypic Screening of Ds Transposon and <i>Activation-tag</i> Insertional Mutant Rice Population for Drought and Salinity Tolerant Related Traits <i>Satya Nugroho, Anky Zannati, Apriadi Situmorang, Vincentia Esti Windiastri, Dwi Widyajayantie, Carla F. Pantouw, Dwi Astuti, Sri Indrayani, Syamsidah Rachmawati, Enung Sri Mulyaningsih, Tri Joko Santoso and Kurniawan Rudi Trijatmiko</i>	21
Genetic Transformation of Rice cv. Ciherang Using Double T-DNA Vector Harboring <i>cry1Ab</i> Gene <i>Yuli Sulistyowati, Agus Rachmat, Fatimah Zahra, Syamsidah Rahmawati, and Satya Nugroho</i>	27
